CONTACT: David Miller, city engineer, 337-8559

CONSTRUCTION BEGINS NEXT WEEK ON HISTORIC DOWNTOWN STREETScape IMPROVEMENTS PROJECT

The city of Branson wants to inform motorists that construction will begin next Monday, November 3rd on the Historic Downtown Streetscape Phase 1 Improvements Project. Phase 1 construction consists of three roads in the downtown district. The project area includes Commercial Street between Pacific St. & College, College Street between Commercial St. and Veterans Blvd. and Pacific Street between Commercial St. and Veterans Blvd.

There will be periodic closings during this construction phase, but traffic control signage will be in place to assist motorists navigating through the construction zones and flagmen will be on site to manage traffic so vehicles will be stopped for only short periods of time.

The initial phase of construction will involve the installation of water lines and storm sewer piping.

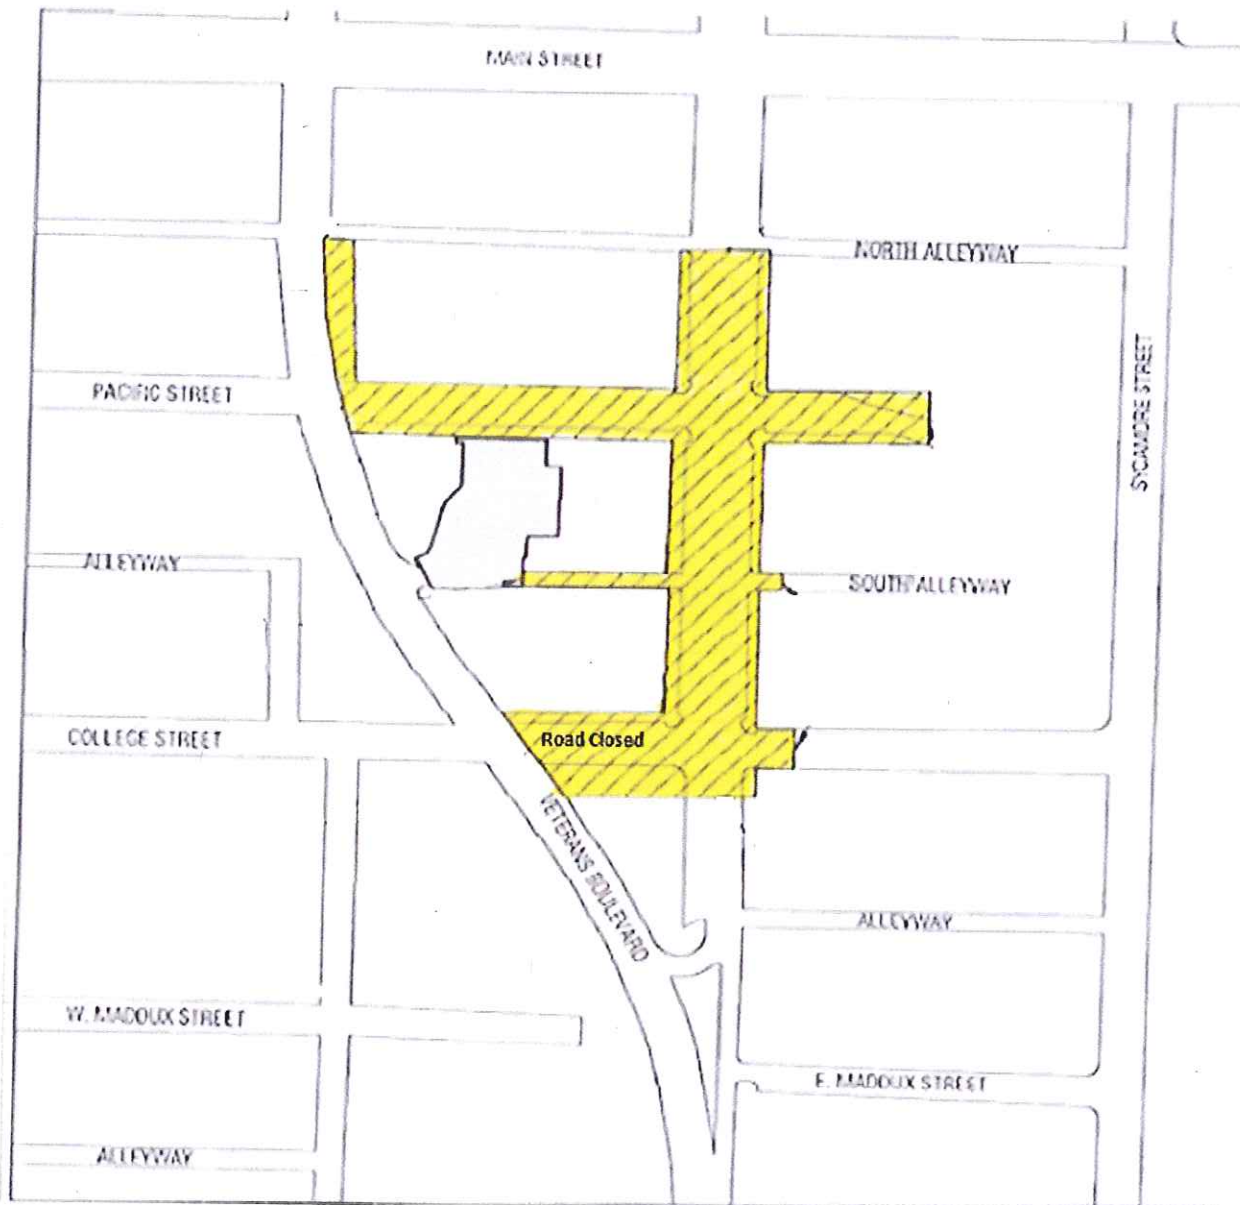

College Street west of Commercial St. to Veterans Blvd. will be closed to traffic for the duration of the construction project.

The Streetscape Improvement Project will include new underground water lines, storm sewer pipe installation, pavement, sidewalks, streets, lighting, benches and landscaping improvements.
